- 1. There is one grant which Holmbury St. Mary are getting and sharing with Peaslake which they won't continue to get., worth I think about £2k according to Ray Smith (councillor).
 2. I worry about Peaslake councillors losing the experience and expertise of the council members collectively. They will be reliant on much less going forward to make the right decisions.
 3. When we voted for the farm buildings a few years ago to be converted for affordable housing the nimbys of Peaslake persuaded by Gerry actually voted against and the vote was only saved by residents of Shere and Holmbury. It could happen again. (anon)
- - Thank you so much for doing this. Good information is always needed, I am concerned about any new council being too small to cope, as all the councillors would have to sit on all the committees, and there is a lot to do. (anon)
- The whole issue is very dividing. Already there are some people now who will not speak to another over this- Why is this necessary? (anon)
